

## Arizona Silver Belt.

THURSDAY - AUG. 1, 1878.

MAIL arrives 12 M., Thursday; departs 6 a.m. Friday.

### LOCAL MATTERS.

10,000 pounds of barley received and for sale by Morrill & Kellner & Co.

A large number of persons are reported on the road from Silver City and further East, to this place.

Richer developments were made at the El Capitan mine on Saturday last.

The friends of J. R. Nichols will be pleased to learn that he will be here on Saturday.

Notice—I wish to sell the house in Globe now occupied by me.

W. T. KEELER.

Books are now open at the several Justice's offices for the purpose of REGISTERING names of voters.

The hoisting and pumping machinery for the Humboldt mine arrived and was unloaded at McMillenville on Tuesday.

David Beardiley lost his pocket book containing about \$35; between the Chromo mine and this place on Tuesday.

Work on the road from Cadmus mine to Isabella began last Thursday, July 24th. Number of men employed 7. On Tuesday the road was completed to Metamora mine.

We had a soaking rain of several hours duration as also a water spout in the Pinac mountain which sent a rushing current down the arroyo which skirts the town.

We are informed that a surveying party of the Denver & Rio Grande Railroad company are running a preliminary line and expect to be at Clifton, Arizona, on the 15th inst.

On Sunday thieves broke the lock on the door of W. G. Griffith's home at the Imperial mine and carried away valuable personal effects—the burglars are supposed to be white men.

A rumor has reached town that J. F. Clinton and B. T. Gilbert, who had been out prospecting for some weeks, were found dead in the road; one report says on the Phoenix road and another on the Tonopah trail.

Messrs. Collins, Bagley and Owens from San Carlos Indian agency were in town this week. The two former named gentlemen are the newly appointed traders at that place.

A silver bearing mine known as the "Silver Joe" in this District has been sold by Joseph Cox to Elizabeth A. Jones for one thousand dollars. The "Silver Joe" is contiguous to the Blue Bird.

A petition numerously signed by the best citizens of Globe has been sent to Sheriff Brady asking the appointment of George B. Shoppard as Deputy Sheriff to reside in this place. The appointment would be a good one.

Judge P. L. B. Goodwin, we understand, is doing well talking law at Globe. Judge Goodwin is a good talker, good writer and a good lawyer.

In that statement of the Arizona Miner truth sticks out as prominently as a bull's-eye in a target.

A new Temple of Justice has recently been completed in Globe by Justice Swasey, who has built on Broad street a house with two commodious rooms, one of which is used as his news depot and the other as his office. He is preparing to add several more rooms.

Baggs, convicted of beating "Gentle Annie," has been sent to jail at Florence, there to remain one hundred days unless sooner released by payment of his fine. A warrant was issued Sunday charging Baggs with beating an Indian with a pick handle, and placed in the hands of the Constable who neglected to serve it, for what reason we know not. It is supposed that the defendant has been selling liquor to Indians. The cause of the battery is said to be the fact that the Indian demanded from Baggs the payment of two bits which he owed him. The assault, as represented by eye-witnesses, was no outrage.

### Out of Grub.

The San Carlos agency livery does not contain a sufficiency of food to satisfy the appetite of a hungry human being, and in consequence of the famine the Indians have been given tickets-of-leave for fifteen days to hunt acorns.

Red tape has tied the hands of the agent and prevented him from taking over until contractors can send in supplies. Mr. Hart has telegraphed to Washington the state of affairs and asked the privilege of buying of outsiders in order to fill in a deficiency which the government owes to the Indians under his charge. Contracts were let to take effect on the 1st of July, but those to whom they were awarded were not notified until seven days after that date. They should have been apprised of the fact a month earlier in order that they might have had time to have supplied the deficiency before the necessity arose of sending the Indians to the hills in order that they might be enabled to satisfy the keen desire of appetite with acorns, mesquite or whatever else they could find to feed a hungry stomach. The roll of Indians at San Carlos shows 4,500 dependent upon that agency for food. Not less than 400 passed through this place on Saturday evening and Monday morning, others are scattered over the Pinac mountains and elsewhere in this and Maricopa county.

From this it would seem that the "parental care" bestowed upon the Indian by our government is better calculated to engender hate than love for the hand that pretends to feed them. The author or authors of this criminal neglect to provide food in time to have prevented this general exodus should also be turned out to browse.

The necessity of a good wagon road from Globe to McMillenville has long been apparent to all public spirited and enterprising citizens and a movement to secure the desideratum has been set on foot and has thus far met with success. Messrs. J. H. Eaton, Fred Medler and Wm. A. Wilson took it upon themselves to move in the matter and started a subscription list which has been liberally signed in this place and McMillenville. Last week these gentlemen visited the latter place, at their own expense and at inconvenience to their own business, circulated the subscription list and rode over the mountains looking out a route. They expect to return again in a few days to complete arrangements.

The citizens have generally subscribed liberally and as the enterprise is one of general importance and greatly conducive to the prosperity and development of this whole section of country it is but right that the Board of Supervisors of Pinal and Maricopa counties should contribute towards the construction and petitions to that effect will be presented at their next meeting. We will have more to say on this point in the future.

Great credit is due Messrs. Eaton, Medler and Wilson for their disinterested energy in furthering so important an enterprise. In our next issue we will publish the names of parties who have subscribed.

We learn that at a meeting of the citizens of McMillenville held last Saturday the following named persons were nominated for county and township offices: For the Assembly Al Jones, for Supervisor J. H. Livey, for Justices of the Peace in Richland Precinct John Jones and Geo. Turner, Sr. It is well understood that although candidates have no opposition they are always defeated unless they announced their candidacy in the paper published nearest to their residence.

A word to the wise, &c. We feel an interest in the success of the nominees because they are all friends of the BELT, but if they should be defeated in consequence of the above mentioned omission we have no intention of going into mourning for more than thirty days.

Inasmuch as the following from the Arizona Citizen of the 21st ult. has been read and attributed to the utterance of the BELT we republish it and follow it with what we did say in regard to Mr. McClintock's visit to this office:

The Silver Belt announces a visit from Charles Lucien McClintock, the mighty manager of Maricopa's Mining and Marine Journal, and the Globe miners are correspondingly careful of their live stock.

We have had an agreeable visit from C. E. McClintock editor and manager of the Salt River Herald. He has been confessing the district in the interest of his paper.

### G. L. Clark formerly superintendent of the Methow mine has recently been made assistant super-

intendent of the Standard Jackson mine.

He enjoys favorably of the systematic working of the same under

the immediate superintendence of Mr. Freeman and is of the opinion that

the ore already discovered will lead

to the development of a larger body

at a lower level.

### GEM SALOON.

McMillenville, A. T.

For a variety of choice

### WINES.

LIQUORS AND

CIGARS,

is unequalled. Nice Club Room attached.

Give us a call and be convinced.

Thos. L. Reed,

Proprietor.

13:30

DEALERS IN

GENERAL MERCHANDISE

SHOES, CLOTHING,

GROCERIES,

DRY GOODS AND CLOTHING,

BOOKS AND SHOES,

HATS,

TINWARE,

HARDWARE,

CROCKERY,
